

The VAP-8K is an extension keypad / zone expansion for the VAP-1 emergency microphone station.

VAP-8K has eight software programmable keys to select 8 additional zones.

Up to 7 extension keypads can be connected to each VAP-1

The extension keypad is connected via the Connect port located on the side of the VAP-1..

By coupling up to 7 additional VAP-8K units to one VAP-1 emergency microphone station, up to 448 zones can be realized.

VAP-8K main features:

- 8 keys programmable via software
- Up to 7 expansion keypads per unit, can be connected together
- Busy indicator for active zones
- Sturdy metal housing
- Local power supply
