

The EN54-16 certified emergency microphone ONE-PTTS02 with voice alarm function.

The dynamic emergency microphone ONE-PTTS02 was developed to extend the functionality of the compact EN54-16 voice alarm system ONE500 V03 in its current firmware version. The ONE500 V03 has a special microphone input that has the highest priority of all audio sources in the event of an alarm in the system. In addition, the magnet attached to the microphone allows the emergency microphone to be attached to any metal surface, thus improving its use in emergency situations.

General features:

- EN54-16 compliant
- Easy to use
- Voice alarm function for emergency announcements in the event of an alarm
- Magnetic holder
- Suitable for ONE-500 with firmware version 3.01.01.XX or higher

Technical Specifications:

Model	ONE PTT 2
Cabel length	1 m
Packaging dimensions (H x W x D)	96 x 381 x 320 mm
Gross weight	220 g

Rev. 1.0 (240808TK)
