

NEO CONTROL SOFTWARE FOR PA/VA SYSTEM MANAGEMENT

This software for Windows® allows total control and supervision of the entire system through ethernet network, an easy and intuitive installation and with no configuration required.

It allows a centralized control of the system, volume control, source routing, pre-recorded messages broadcasting, management of emergency functions and system profiles. It allows setting installation floor plans as GUI interface.

Hardware-bound, permanent (lifetime) single-user license.

Main features of NEO CONTROL:

- Central and secure control of the NEO/NEO+ system
- Routing of quality audio
- Easy to install and configure
- Volume control
- Total system supervision (failure, evac mode, etc) by zones
- Allows to add installation drawing plans
- Synchronized with the NEO system
- Without the need to configure databases
- Exclusive for NEO/NEO+ systems (NEO/NEO+ Controller and NEO/NEO+ Extensions units)
- One NEO system can handle up to 5 connections from NEO Control
- NEO Control allows to control one single-side NEO/NEO+ system

User interface (example):
